

ONGETTA

**ONGETTA - international leader of silk yarns production,
will support SIC58 Squadra Corse again in 2020**

Everything begun few years ago, when a curly haired crazy kid, who could open the gas like no one else, conquered our heart. He used to race with passion, determination, the wish to grow and learn, never giving up.

It's with this spirit, that we share in our everyday life as in our job, that we accepted Paolo's challenge: to teach those values to our riders, helping them grow from minor championship with the aim to bring them to the world one.

Last year we extended our commitment also in MotoE.

BioSilk ONGETTA strongly believes in sustainability: in fashion, as much in motorbikes. That's the reason why we will continue supporting this project, that takes the name **ONGETTA - SIC58 Squadra Corse**
